Stackable

Foldable

Space Savers

80% Space Saver

Key Features

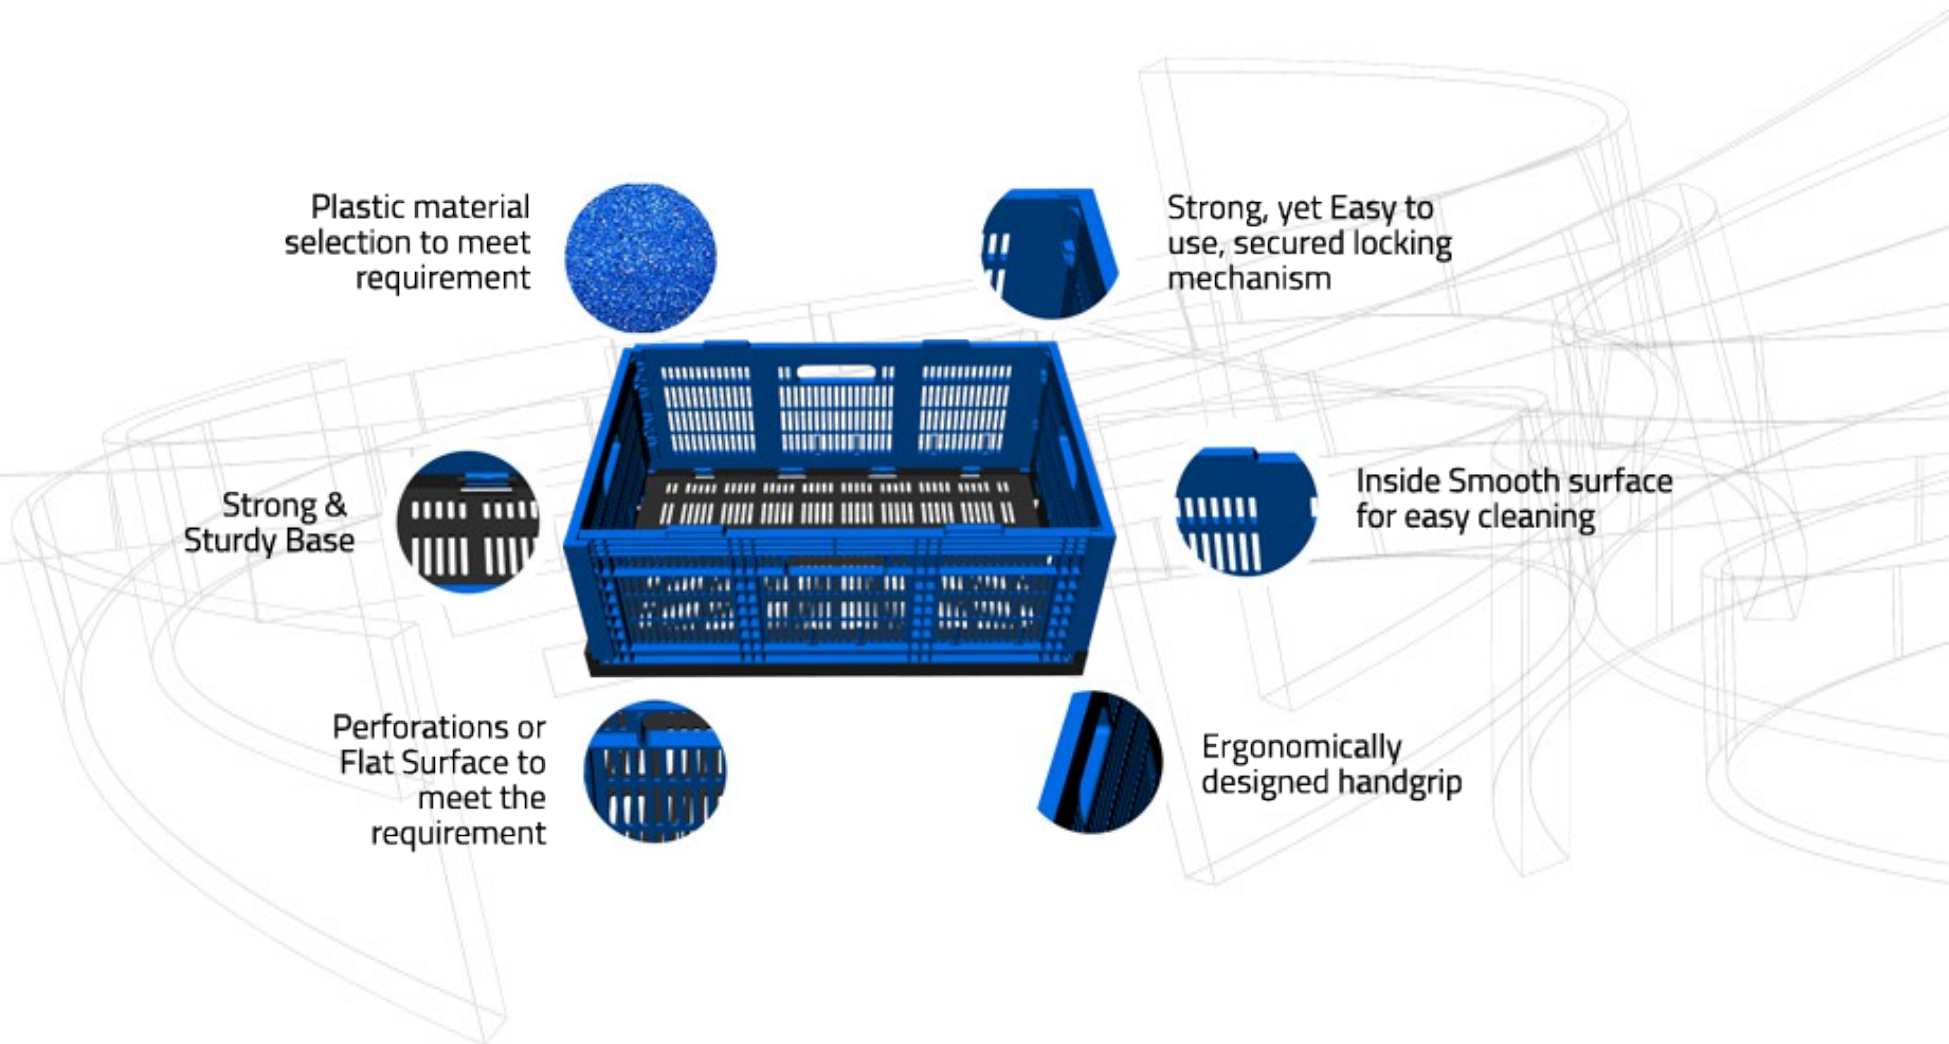

Fold C

- Light Weight and Rigid
- Convenience and ease of handling
- Hygienic and non-toxic
- Space saving – Foldable, Stackable & Nestable
- Resistant to Chemicals / Soaps
- Anti-Rusting
- Wide choice of shape, size and colours tailored for each end-use
- Tough - Withstands wide range of temperatures (-35 to 65) and climatic conditions encountered during service
- Environment friendly
- Longer service life

Key Features

Fold C

Plastic material
selection to meet
requirement

Strong, yet Easy to
use, secured locking
mechanism

Strong &
Sturdy Base

Inside Smooth surface
for easy cleaning

Perforations or
Flat Surface to
meet the
requirement

Ergonomically
designed handgrip

Soft Drink industry

Storage, handling, transport and distribution.

Milk and dairy products

Handling, transport, distribution.

Fisheries & Marine

Storage, handling, transport and meat products distribution.

Automobile Industry Storage

Fruits and vegetable

Storage, handling, transport.

Electronic and electricals

Storage, handling.

Pharmaceuticals Storage, handling

Agro-Products Storage & handling

Yarn and textiles industry

Storage, handling

Defense Sector Storage, handling

Specification

Fold C

Small

FC-403011-001 - 14L

Item No.: FC-403011-001

Material: PP / HDPE

Size: 400 X 300 X 115 MM

Color: Grey , Blue

Compact

FC-503020-001 - 27L

Item No.: FC-503020-001

Material: PP / HDPE

Size: 500 X 325 X 200 MM

Color: Grey , Blue

Medium

FC-604018-001 - 45L

Item No.: FC-604018-001

Material: PP / HDPE

Size: 600 X 400 X 180 MM

Color: Grey , Blue

Sepcification

Fold C

Medium

FC-604022-001 - 54L

Item No.: FC-604022-001

Material: PP / HDPE

Size: 600 X 400 X 220 MM

Color: Grey , Blue

Medium

FC-604022-002 - 54L

Item No.: FC-604022-002

Material: PP / HDPE

Size: 600 X 400 X 220 MM

Color: Grey , Blue

Large

FC-604027-001 - 65L

Item No.: FC-604028-001

Material: PP / HDPE

Size: 600 X 400 X 270 MM

Color: Grey , Blue

Fold C Crates are efficient, hygienic distribution aide for manual or automated material handling. These are ideal for storage, distribution and display of products. The crates have optimum recesses in inside, making them easy to wash and clean.

Option with the perforated sides ensure drainage of water and a good air-flow whenever needed for special requirement.

The upper rim is designed with reinforcement ribs. This gives a strong, rigid container with the lowest possible weight. These has a capacity of up to 20 kg and a stacking capacity of 250 kg.

RFID Tags possible

Collapsible/Foldable features are particularly important when empty containers are stored or transported with a view to economizing on transport space.
